

Optimize your success with integrated eCommerce solutions from CONIGON

- CONIGON ADIB is a flexible, easy-to-configure ESB solution for efficient management and integration of product and master data (PIM/DAM/MDM), as well as the creation of cloud-based portals for centralized data integration (ERP, CRM, eShop, etc.).
- CONIGON ADIB gives you a competitive edge through up-to-date data across all channels, faster time to market, and resource savings (time and costs).
- CONIGON is a double-award-winning partner of Contentserv (Centric), a leading PIM provider in Germany and France. CONIGON GmbH is headquartered in Dillingen (Saar), CONIGON France SAS in Metz.

CONIGON Portfolio

- Many years of experience in eCommerce consulting and seamless integration of systems such as SAP, CRM, eShop, web portals, etc.
- Extensive expertise in PIM/DAM systems
- Modular and scalable software solution for centralized data integration and visualization (ADIB ESB and ADIB Portals), without additional programming effort
